WHAT I DO

Sharp strategy.
Real execution.

No bloated retainers. No vague frameworks. I embed into your brand and build what moves the needle.

01

GTM Strategy & Launch Programs

From channel architecture to launch sprints — I design go-to-market programs that get products in front of the right people at the right time, with post-launch loops built in.

D2C | MARKETPLACES | QUICK COMMERCE | LAUNCH PLAYBOOKS

02

Brand Strategy & Positioning

Consumer insight → brand architecture → messaging that converts. I work across identity, narrative, and communications to build brands that stand for something clear and sellable.

POSITIONING | PACKAGING | BRAND VOICE | NPD

03

D2C & Marketplace Growth

Shopify, Amazon, Flipkart, Blinkit — I manage P&L, assortment, content, pricing, and ROAS across every major online channel. Revenue-first, not vanity-metric-first.

SHOPIFY | AMAZON | FLIPKART | P&L MANAGEMENT

04

AI-Enabled Growth Systems

I build AI infrastructure that makes growth teams faster — personalisation engines, content automation, demand forecasting, and agentic workflow design. Business-to-tech translation included.

PERSONALISATION | AUTOMATION | MARTECH | AGENTIC AI

05

New Product Development

Research → validation → launch → scale. I own the full NPD pipeline — from consumer insight and formulation inputs to packaging, compliance, and marketplace readiness.

CONSUMER RESEARCH | CATEGORY CREATION | LIFECYCLE MANAGEMENT

06

Performance Marketing

Paid media, SEO, and content programs tied directly to revenue. Google, Meta, and marketplace ads — managed with a performance-first mindset and no dependency on discount-led growth.

ABOUT

Builder first.
Consultant second.

I'm **Aakanksha Karande** — a GTM and growth strategist based in Bengaluru with over a decade of work spanning consumer brands, wellness products, and digital-first businesses across India and international markets.

My edge is that I've done this from the inside — as a **founding team member** and as a **consultant**. I've owned P&Ls, built Shopify stores from scratch, launched categories that didn't exist, taken products into 7 countries, and built AI systems that made growth teams actually faster.

I don't hand you a 60-page deck and leave. I embed, I build, and I stay until it works.

FUNCTIONAL FOOD & WELLNESS D2C BRAND

Built a brand from zero — and a growth engine to match

Led end-to-end NPD, GTM, and D2C buildout for a functional nutrition brand — 21 SKUs, Shopify storefront with AI-based nutrition personalisation, and multi-channel distribution across D2C, marketplaces, and quick commerce.

- ₹11L+ ARR in Year 1
- 19% Repeat Rate
- 4,000-unit B2B Order
- 21 SKUs Launched

HERITAGE SWEETS & FMCG BRAND

New categories, global markets, and a 70% revenue share

Created and scaled two new product categories — Healthy Laddus and Festive Gifting — from consumer research through to sustained revenue. Led international expansion across 7 countries and conceptualised India's first video-based digital gifting product.

- 25% YoY Online Growth
- 70% Revenue from Gifting
- 7 Countries
- 60%+ Non-Festive Growth

MICROBIOME SKINCARE & WELLNESS BRAND

Research-to-market translation for science-led products

Owned GTM, brand narrative, and marketplace growth for a clinical skincare brand. Translated R&D outputs into consumer-facing storytelling, built launch roadmaps, and managed P&L across D2C, Amazon, Flipkart, Blinkit, and Zepto.

- Multi-channel Launch
- Medical Comms Strategy
- Full P&L Ownership

NUTRACEUTICAL BRAND · AI TRANSFORMATION

Built an AI-ready growth org from the inside

Led enterprise-wide agentic AI adoption for an internal growth and marketing team — designing automation workflows, prompt systems, and capability frameworks that improved speed-to-market and decision intelligence across business units.
